

Moticam X² Wi-Fi

WI-FI CAMERAS

A unique solution to turn your old microscope into a Wi-Fi station, enabled to share your images with up to 6 devices at the same time. Simply logon with your tablet or smartphone and get ready to capture, edit and store your microscope images with the free App MotiConnect.

The Moticam X² has its own battery, and it allows you to integrate it to your own network either via Wi-Fi or Ethernet cable, allowing more users to be connected. Alternatively, it also works with our standard Motic Images Plus Software for computers.
